editorial

This new edition of the Tech Art Record has been published with but one objective: to capture the entire year between its covers. To fulfill this objective takes long hours of thought and hard work on behalf of the Editorial Staff.

In future years, if this book serves to relate to you, the reader and student, many fond memories and pleasures of the years gone by, it will then fulfill its entire purpose.

There are always those, who put forth a sincere effort, but go unrecognized, those people I would like to thank on behalf of the staff for your time and effort.

With these few thoughts, we the staff of the Tech Art Record, present to you, your
new

dedication

HE WAS A BUILDER:

When Ernest Wood died so suddenly last summer it was Tech's sorrow to lose one who had enjoyed the deep affection reserved for a special member of the S.A.I.T. Administration. But it was more than that. It was a matter of lasting sadness to lose a friend who had helped in the building of Tech for more than thirty years, ten of them as principal. To say "he was a builder" is to speak the uncontrived words of fact, not the formal words of eulogy.

Mr. Wood's dedication to his work at the Institute in the terms of time and effort knew no limits. He was a friendly man, always interested in the welfare of both his staff and students. He was always the first to enquire, to comment, or to wish well.

To the memory of Mr. Wood, we dedicate this 36th edition of the Tech Art Record.

in memoriam

m e s s a g e

from

Hon. A. O. Aalborg

Minister of Education

TO THE STUDENT BODY OF THE SOUTHERN ALBERTA INSTITUTE
OF TECHNOLOGY

The year 1962-63 will go down in Alberta's educational history as a vocational education year. It will have seen the coming into operation of the Northern Alberta Institute; it will have seen the erection of a number of vocational high school buildings or additions; it will have seen the erection of further much needed facilities at the Southern Alberta Institute.

All of this activity points to the realization by our citizens and by our various levels of government that the sort of education and training given by such institutions is of great value to those who receive it, and that the welfare of our whole society depends upon having people who are adequately prepared to do useful and necessary work.

Through its staff and its graduates the Southern Alberta Institute has, over the years, developed a high reputation and has contributed greatly to the design of the more extensive program now in prospect. Institute graduates may take pride in being part of this example and leadership.

May I commend the Editor and staff of the Yearbook for their effort and industry, and to all may I express the hope that you may find profit and satisfaction as you enter upon the careers for which your labours at the Institute have prepared you.

Andrew C. Mackay

YEARBOOK MESSAGE

I think you have been fortunate to have had the opportunity to attend an educational institution which provides training in a variety of disciplines.

Your direct and indirect associations among students in art, business, technology, apprenticeship, and industrial arts can enable you to see your own interests, ambitions, viewpoints, and specialized education in broader perspective. These associations also provide you the opportunity to appreciate more fully the interests and viewpoints of others.

When you are able to see yourself and others in this broader perspective, you are likely to realize more fully your own abilities and limitations and to be more tolerant of those who study and work and live about you.

If this happens to you, you have achieved a measure of maturity that will be invaluable to you in your work as an employee and in your life as a citizen.

The staff and I hope that you have acquired this aspect of maturity along with your formal studies.

F. C. Jorgenson,
Principal.

SOUTHERN ALBERTA INSTITUTE OF TECHNOLOGY
Tech Art Record

Re: Group Project

Group photo for the (2-23) Tech Art Record will be taken according to the following timetable. All groups will be taken to the MAIN CAMPUS at the designated time. The expense of these pictures will depend on several factors:

1. 100% turnout of members of each executive;
2. Presence of the Staff Sponsor(s); and
3. Appropriate dress, i.e. shirts, ties, and jackets

activities

frosh week

This year, as in previous years, the frosh enrollment was larger than that of the returning students. At a glance, this may appear obvious as some courses are completed in one year. Conversely, other courses have third and fourth year students. Whichever way you look at it, there are a lot of missing faces among those returned.

Kick them off to a good start.

Damn contact lenses.
